Meet Jason Redman

Jason spent 15 years with the Navy SEAL Teams as an Officer and enlisted member before being severely wounded in a firefight in Iraq in 2007. Despite a four year recovery, he committed to finish his career retiring after 21 years. He founded SOF Spoken after retiring with the idea of sharing Special Operations Forces abilities as leaders, team builders, communicators, and adversity crushers and to take these lessons learned in peacetime and combat and make them relatable and applicable to businesses and individuals. Jason is the New York Times bestselling author of “The Trident” and “Overcome”.
